

SUMMARY

.NET Developer with 3 years of hands-on experience in building high-performance backend systems and modernizing legacy applications. Experienced in ASP.NET Core, .NET 8, REST APIs, Angular, and SQL Server with strong knowledge of Clean Architecture, dependency injection, and scalable system design. Passionate about writing efficient, maintainable code and delivering reliable enterprise solutions.

WORK EXPERIENCE

Junior .NET Developer

Feb 2024 - Jan 2026

Hats Off Solutions, Gandhinagar

- Led the modernization of legacy applications by migrating from .NET Framework to .NET 8, achieving measurable gains in application performance, startup time, and long-term maintainability.
- Architected secure, high-performance RESTful APIs using Clean Architecture principles, custom middleware, and robust authentication/authorization pipelines.
- Developed and integrated full-stack features using Angular and C#, ensuring seamless frontend-backend communication and scalable service orchestration.

Junior .NET Developer

Feb 2023 - Jan 2024

Future Stack Solutions, Ahmedabad

- Designed and delivered enterprise-grade CRM modules using ASP.NET Core, Entity Framework, and SQL Server, optimizing query execution paths and improving data retrieval performance.
- Integrated third-party APIs and automated Excel-based data pipelines, significantly enhancing workflow efficiency and reducing manual user operations.
- Applied Dependency Injection, layered architecture, and configuration management best practices to build scalable, maintainable, and testable backend systems.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Pandit Deendayal Energy University, Gandhinagar

- Relevant Courses: Data Structures, Advanced Web Development, Machine Learning, Software Engineering, Agile Methodologies
- Completed Graduation: 2024

12th Science Gujrat Board

Shree Swaminarayan Higher Secondary School , Gandhinagar

- Relevant Courses: Mathematics, Physics, Chemistry, Computer
- Completed Year: 2019

SKILLS

- **Backend Development:** C#, Python, .NET 8+, ASP.NET MVC, Entity Framework , LINQ, RESTful APIs.
- **Frontend Development:** Angular, TypeScript, JavaScript, HTML5, CSS3, jQuery, Bootstrap.
- **Database & Storage:** SQL Server, Database Design, Query Optimization, Code First & Database First.
- **Tools & Methodologies:** GitHub, Postman, Visual Studio, VS Code, Agile Methodologies, Scrum, SDLC.
